Audit & Assurance Services

Audit and assurance are the assessment of a company's financial information in order to establish the credibility of the company for the benefit of its owners and shareholders. As per the UAE Federal Law No. 2 of 2015, requires every company to appoint a licensed auditor registered under the Ministry of Economy to audit their financial affairs.

We follow International Standards on Auditing (ISAs) to perform our audit. Our audit specialists have extensive experience conducting comprehensive audits for small to medium size organizations and companies.
